State Convention Policies

Decorum at State Convention

The Executive Board of the NCJCL deems it necessary and advisable to caution chapters about their shirts, spirit props, signs and other equipment.

1. Absolutely no depictions of alcohol, drugs, or any sexually suggestive materials will be tolerated at NCJCL events. In addition, language that is suggestive of any alcohol use, drug use, or sex should be excluded from any shirts, banners, signs or other materials belonging to the delegates.
2. If shirts are found to violate these rules, the students who are in violation will be asked to turn their shirts inside out or change them, if that is a viable option.
3. If, after being asked to turn the shirt inside out, or rid themselves of offensive materials, the students are still in violation of these standards of decorum, and/or fail to comply with the request, the student/students/JCL chapter will be disqualified from the event they are presently competing in, and their sponsor will be notified.

State Convention Waivers

1. Waiver forms will be sent to each NCJCL chapter in the registration information.
2. In order to be in compliance with the NCJCL insurance carrier, every student attending State Convention must have a signed waiver form on file with the State Convention Coordinator(s).
3. If a student does not have a waiver on file, they cannot attend State Convention.
4. Sponsors will be asked at registration to confirm the names of their delegates and adult sponsors/chaperones/parents attending convention. This is necessary so that in the event a claim must be filed, the NCJCL is in complete compliance with the insurance carrier.

State Convention Registration

1. State Convention registration dates will fluctuate from year to year but will be posted on the NCJCL website. The following is a general timeline:
 - a. Two months prior: Information sent to sponsors
 - b. One month prior: Registration due

2. Registrations will not be accepted within the two weeks leading up to convention and all registrations must be complete by this deadline.
3. If the Late Registration due date is missed, the chapter will not be allowed to participate in State Convention for that year.
4. A sponsor must accurately register their students for the proper events so that each event runs smoothly. If a student is not registered for an event, they will not be allowed to compete in that event. Instructions will be provided in the State Convention Registration packet and on the NCJCL website.

Certamen

Competitive Certamen

Definition of Competitive Certamen

1. a team contest similar to College Bowl or High IQ, in which the subject areas of the questions asked include Latin Grammar, Roman History, Classical Mythology and Latin Vocabulary, and at the Advanced Level, Latin Literature

The Certamen Coordinator

1. NCJCL Certamen events will be governed by a state Certamen Coordinator, or co-coordinators, as the Executive Board sees fit, henceforth “Certamen Coordinator” (refers to either a single Certamen coordinator or co-coordinators).

Certamen Divisions

1. There are four divisions of Certamen:
 1. Middle School- students who are enrolled in Latin Ia or Ib, but who have not yet completed a Latin I sequence. These students may not compete in Novice division.
 2. Novice – students who are either enrolled in a one-year Latin I or students who have completed Latin I with no other subsequent levels of Latin having been taken.
 3. Intermediate – students who are either enrolled in Latin I or II or students who have completed Latin I or II with no other subsequent levels of Latin having been taken
 4. Advanced – students who are enrolled in, or have taken, any level of Latin.

Registration

1. Each school may enter two teams per level, with a maximum of 8 students per team (4 actual team members and 4 alternate members). The team members on a team that actually play may be changed between rounds, not during a round.

State Qualification

1. Each team will participate in a qualifying Certamen on a Saturday in March determined each year. If more than one Certamen is held throughout the state for qualifying, all rounds of Certamen must be coordinated such that they start in unison. Each round of a Qualifying Certamen will consist of ten (10) or twenty (20) toss-up questions (at the discretion of the Certamen Coordinator) with two (2) bonī per toss-up.
2. The nine teams with the highest point total in each level from these Certamina will qualify for the semi-final round. If a tie occurs at 9th place, a 10 question tie-breaker will break the tie, at Regional Qualifiers if the teams are at the same location, or at State Convention if they are at different Qualifier locations. Seeding for semi-finals will be based on qualifying scores (one room having the teams with the 1st, 4th, and 7th scores, the second room with the 2nd, 5th, and 8th scores, and the final room with the 3rd, 6th, and 9th scoring teams).
3. The semi-finals and finals will be single elimination. Each semi-final and final round will consist of twenty (20) toss-up questions with two (2) bonī per toss-up, for a possible point total of 400 points.

1. The semi-final rounds will be held immediately following the qualifying rounds.

Rules of Play

1. In all rounds of Certamen, the moderator will recognize the first person to buzz in and that person must answer the question without conferring with his teammates. If the moderator determines that the team has conferred, the entire team will be disqualified for that toss-up. Confering is any behavior deemed to appear communicative between team-mates or the audience, including but not limited to eye contact with another player or gestures. If the person who buzzed in gives the correct answer, the entire team will have the opportunity to answer two bonī. Although a team may confer, the captain must give the answer. The Captain may verbally defer to a teammate, who may then answer the bonus question.
2. The moderator must stop reading the question as soon as a player buzzes in. If that player answers incorrectly, then the moderator will recognize the next player from another team that has buzzed in. If no other player has buzzed in, then the moderator will finish reading the question for the remaining team(s). Only one player per team may buzz in on a particular question.

8. Whenever possible, the moderator meetings will be conducted by a seasoned moderator or someone else designated by the Certamen Coordinator.

Challenges

Challenges must be filed within 15 minutes after the end of a round during preliminary rounds, but during the round itself during State Finals and Semi-Finals.

Sight Latin Reading

3. Students will be given a fifteen minute preparation period in which a dictionary, provided by the contestants themselves, may be used. Macrons will be provided on the selections to indicate long vowels. The students may make notes on the selections; no other scrap paper is allowed. At the conclusion of the fifteen minute preparation period, the passage and the dictionaries will be collected. No translations of the Latin will be provided.
4. The contestants will be given a clean copy of the macron-marked passage as they appear before the judges. The student will be expected to read the passage aloud in Latin.
5. The contestants will be judged using a rating of 5-4-3-2-1 for confidence, continuity, phraseology, stress, vowel quality, syllabication, vowel length, consonant quality, and double consonants.
6. Both Classical and Ecclesiastical pronunciations are acceptable, but the contestant must inform the judges before performing if Ecclesiastical Latin will be used.
7. Definitions of terms used in Sight Latin Reading:

Confidence	This criterion measures the reader's comprehension of the text, as evidenced by an appropriate intonation pattern, pauses in suitable places, and other indications of understanding.
Continuity	This standard evaluates the reader's ability to make the language flow-reading syllable-by-syllable earns a 1; word-by-word perhaps a 2 or 3; a smooth, continuous reading of a "whole" text a 5.
Phraseology	This criterion shows the reader's recognition of word relationships and adjectives said with their nouns, conjunctions and prepositions linked to the word groups they control.
Vowel length	A difficult quality to evaluate, vowel length is simply that-how long a Vowel is held: e.g., in the word pa'pa said in ordinary English, the first vowel is long the second short. Vowel quality: This measure checks the consistency with which a reader assigns a particular sound to a graphic vowel symbol: e.g., veni="way-nee," not "wee-nee." Be careful here to credit liturgical variations, where haec="hake" in contrast to the Classical pronunciation "hike."
Syllabication	This criterion recognizes the reader's ability to divide words in appropriate places, e.g., a-gri-co-la; not ag-ri-col-a; com-ple-o not comp-le-o.
Consonant Quality	This measurement evaluates a reader's consistency in pronouncing consonants appropriately, as #5 does for vowels: e.g., v=ww and c=k in classical pronunciation, v=v and c=ch before i and e in liturgical pronunciation. It is generally not required that the r be trilled or tapped, but those readers who have mastered this sound should be credited for its production. Accept either the pronunciation or omission of initial h as long as there is consistency.
Stress	This quality shows a reader's consistency in placing the stress within a word properly, as in a-GRI-co-la, not a-gri-CO-la. Contrast this criterion with #3, which places the stress (usually shown by pitch) within a group of words, and #1, which provides a tonal contour for the whole sentence or passage.
Performance	This category allows the judge to evaluate the overall effect of a reading.

Construction

1. The entire device, including the projectiles and counterweight must be no more than 75 cm high x 75 cm wide x 100 cm long when it is in the ready-to-fire position. Length is measured parallel to the direction the device launches. This restriction does not apply during or after launch.
2. The device, without the counterweight and projectile, may not contribute energy to the launch. Some violations of this rule are:
 1. the center of gravity of the unloaded device drops during a launch motion, the triggering process provides momentum to the launch or any other form of potential energy (compressed or stretched elastic solids, compressed air, etc.) is used
 2. Without a counterweight and projectile, the unloaded device may not move in the direction of a launch motion when released from any position prior to where the projectile is released.
 3. No hand-held projectile devices (like slingshots or potato launcher-type devices) are allowed.

Scoring

1. Each launch will be measured for accuracy. All measurements must be recorded in meters to the nearest centimeter.
2. The Launch Score (LS) for each launch will be : $LS = TD - 2(A) + B$
 1. The Target Distance (TD) is the distance requested by the competitors and is measured from the center of the front of the launch area to the center of the target.
 2. The Accuracy Score (A) will be the distance from the projectile's point of first impact to the center of the target if the projectile lands in the target area. If the projectile lands behind the front line of the Launch Area or if any part of the device leaves the Launch Area and does not return, the Accuracy Score will be the Target distance.
 3. A Bonus (B) equal to $0.1 \times TD$ will be awarded if the projectile hits any point on the target before impacting the ground.
3. Bonus points will also be awarded at the judge's discretion for historical accuracy and/or creativity.
4. Each catapult will have three launches.
5. Penalties of three points will be assessed for every construction violation the judges find.
6. Catapults will be ranked according to the final score with the highest final score winning. The final score will be two times a team's best Launch Score minus any penalties.
 1. Final Score = $2 \times \text{Best Launch Score} - \text{Penalties (if any)}$
